His concern is simply that it is priced at \$4. Do you want to mention in a meeting.

I priced it using F8 in Connexus, did not bother looking at the list.

This is what I have been concerned about is the price, may not actually be on the listing.

Are you sure that isn't Walmart insurance. All generics are \$4. If its on the list please fax me the list.

Jeff  
We checked the \$4 list and it is not on there.

Debbie,

I had spoken to you once before about this but after this weekend's DEA conference, we really need to reevaluate our position on selling Tramadol for 4\$. Based on what we are seeing at store levels and the disclosure by the DEA that tramadol seems to be replacing hydrocodone and carisoprodol, we need to think hard about providing this at this price.

It is not uncommon to see scripts for 240 or 360 per month.
